

Towards a world without violence...

We attempt to highlight the complex nature of violence that exists in society. Women are victims of violence both within the private and the public spaces. The inequalities that exist in our society based on gender, caste, class, religion, further accentuate violence that they face. Violence should neither be condoned nor justified. We should question and protest against each and every form of violence. Only then we can together end violence.

Dilaasa is a joint initiative of **Cehat** and the public health department- K.B. Bhabha Municipal Hospital (Bandra) of Greater Mumbai.

Concept and text developed by Qudsiya, Pramila, Sangeeta, Padma, Chitra, Neeta and Rashmi. The image for January-February is made by Pramila and Qudsiya. The images for March to December are made by Qudsiya. Layout design by Pramila and Qudsiya.
